E-mail: christina.yoshimura@umontana.edu
(this is the best way to reach me outside of office hours)

Breakout Instructors: Jordan Allen (Jordan.allen@umconnect.umt.edu) (sec 01, 03, 05)
Timothy Curran (Timothy.curran@umconnect.umt.edu) (sec 02, 04, 06)
Office & Phone: LA 339, 243-6604
Office Hours: **Jordan** – Tuesdays and Thursdays, 10:00 – 12:00
Tim - Mondays 11:00-1:00 and Thursdays 11:30-12:30

Our relations with others and the communication that both creates and results from them are essential elements of any society. Communication is unavoidable, consequential, and irrevocable – as such, it is to our benefit to refine our communication skills as highly as possible. This course focuses on introducing you to the concepts, processes, and challenges involved in communication, as well as allowing you to practice the skills that will make you a more competent communicator. Therefore, our time in class will involve lectures in which instructors will share knowledge, discussions in which you will share your knowledge, and activities during which you will transform this knowledge into application.

Course Objectives:

- To study and critique the process of communicating
- To recognize the influence our own self-concepts have in our communication
- To identify the influence of our own and others' perception in the process of communication
- To understand how emotions can influence and be influenced during communication interactions
- To study the nature and impact of language choices in interaction
- To explore the intricacies of nonverbal communication – on its own and in addition to verbal communication
- To recognize the role that listening plays in a communication interaction
- To learn how to manage conflict within interpersonal interactions
- To recognize how personal relationships are created, maintained, and ended through communication

Required Materials:

- UM student ID card (permanent, not temporary) - this is a firm requirement of the course, and you must have this photo id with you for every exam.
- At least 4 skinny red scantrons sold at the Bookstore (ParSCORE test form no. F-289-PAR-L)
- At least one #2 pencil
- Floyd, K. (2011). *Interpersonal communication: The whole story*. 2nd edition. McGraw Hill.

Policies:

Attendance & Participation - Class is conducted in order to share important information. By missing class, you not only are missing out on that information, but the rest of the class is missing out on information that you may have been able to share. If you choose to miss class, you must take responsibility for your choice. We give lectures only once, so you will need to gather the information

from class in some other way. Although attendance will not be taken, classes may begin or end with an assignment. These exercises cannot be made up late and cannot be done early.

Think of learning as a chance to grow. Allow yourself to participate in discussion and don't sabotage other people's opportunities for education by discouraging them from participating. Be open to other people and be willing to respond to ideas that are different from what you believe is "normal." Dialogue is how we advance knowledge. Believe that your ideas are as important as everyone else's and share them with us. Do not be afraid to speak up during class, but please do think carefully about what insight/relevance you are offering in personal anecdotes. Personal accounts should be relatively brief and should help the rest of the class understand/critique a concept.

Deadlines: All assignments and exams (including dates and deadlines) will be announced during main class, breakout meetings, and/or on the course website. No assignment or exam may be turned in late nor made up (except for the very rare instance approved by Dr. Yoshimura, generally in advance). For requests of alternate testing accommodations through DSS, you must approach Dr. Yoshimura by the second week of class in order to be effectively accommodated. Please note that no late students will be allowed in to take the exam after the first person to finish the exam has left the room, so be sure to come to class on time.

Academic Integrity: All students taking this course must adhere to the University of Montana's academic dishonesty policy as presented in the Student Conduct Code (SCC). As noted in the code, students are expected to practice academic honesty. Any actions that include, but are not limited to, the following behaviors are reasons for pursuing academic and university sanctions: plagiarism, copying another student's exam, allowing another student to copy from your exam or work, sharing information with another student during testing sessions, acquiring or possessing an exam without the instructor's permission, tampering with course materials or resources (including library references) submitting false information (data, quotations, citations, etc.), representing someone else's work as your own, clicking for someone else in the response section of our course, putting someone's name on work they haven't done, etc. Students will be charged with academic dishonesty for any breach of these standards. No work done for credit in any other class may be turned in for credit in this class. The *minimum* consequence for engaging in cheating or plagiarism is failure on the related assignment, but this type of activity usually results in failure in the entire course. At worst, academic misconduct can result in expulsion, denial of your degree, and/or revocation of a degree that has already been awarded. See the Student Conduct Code for definitions and consequences of cheating and plagiarism. The unabridged student conduct code is located at: www.umt.edu/studentaffairs/policy/code.htm.

Philosophy and Consideration – We are committed to fairness. We generally abide by the ethical system of the categorical imperative – something is just and fair if it can be applied to everyone in the same circumstance. We created the policies in this syllabus to be applied to everyone in the course – we do not grant exemptions, extensions, or extra credit to one person if we cannot do so for the entire class. The entire class is being held to the policies in this syllabus, and the timeline and schedule for this course – please make sure that you are willing to accept this if you choose to continue in the course.

The overall atmosphere in the class should be that of respect - for yourself and everyone else in the class. In the course of our discussions, personal information may be disclosed. Please do not repeat this information or use it to harm others. Help foster a classroom where education and consideration for one another are valued. Please understand that harassment of any kind is both inappropriate and intolerable, and disciplinary action will be taken should it occur.

E-Mail – Although you may come meet with us during office hours, many people choose to communicate via e-mail. Please always put COMM 110 in the subject of your e-mail, especially if you are not emailing from your grizmail account. Please allow up to 48 hours for us to reply to any email. Generally, we will reply well before 48 hours is up, however, you should not email questions the night before an exam. You may or may not receive a reply. When emailing, please write professionally and courteously. This means forming complete sentences, with appropriate punctuation and capitalization, as well as formulating your questions or requests in a considerate

way. We will reply to you in the same manner. If your e-mail deviates too far from these expectations, we will reply by gently pointing you back to this section of the syllabus and asking you to try again.

Contesting Grades - We are willing to go over any assignment or exam with you to discuss concerns that you might have. We ask that you abide by three guidelines, all of which make it easier to concentrate on your concerns. 1) Please contact us a minimum of 24 hours after an assignment/test grade has been posted and a maximum of two weeks after an assignment/test grade has been posted. 2) Please write your concerns and your backing for these concerns down so that we can look them over as we meet. 3) Please approach us only during office hours or during an appointment that we've scheduled - discussing your grade in class violates your privacy and doesn't provide an environment where we can adequately focus on your concerns. If you wish to contest a grade, you must make an appointment to do so within one week after the assignment has been returned.

Please note that grades on all in-class assignments will be posted on our course website within a week after the assignment has been turned in. Do not worry or contact us to find out your grade until this week has passed.

Grading:

Assignment	Points
Breakout Assignments (8 @ 12 pts)	96
Exams (3 @ 100 pts)	300
Group Project (Show Off/Show Down)	50
Participation in large class	54

Total Points	500
--------------	-----

We do not use the +/- system in this class, nor do we curve grades.

Exams:

The exams in this class are not cumulative, and each will cover only a portion of the class. You will be provided with a study guide and/or review prior to each exam. Exams may include any of the following: multiple choice, true/false, or matching. Four exams will be given – your three highest scores will become part of your final grade. **PLAN TO TAKE ALL FOUR EXAMS** and drop the lowest score – but if you are unable to make an exam (documented illness/school-sponsored event/family emergency) this will be the exam that is dropped from your final grade automatically. Contact us early on if you have questions about this policy.

Breakout Assignments:

Frequently we will begin or end breakouts with an activity designed to reinforce course concepts. These assignments should prove useful to you as students as well as to us as instructors. If you decide not to come to class or leave class early you risk the possibility that you will lose the points associated with these assessments. Each assignment will be worth 15 points – the eight best scores will be counted towards your final grade.

Group Project – will be explained as we move forward through the class. **Participation** opportunities will be announced spontaneously in the main lecture, and may come in the form of short answers, quizzes, small projects, etc.
